

KIRA

Kohler Integrated Remote Analytics

KOHLER[®]
IN POWER. SINCE 1920.

KIRA is the new diagnostic experience developed by KOHLER. Even what looks complicated can now be addressed easily.

Follow four simple steps:

1. Register the VCI
2. Download the software KIRA at www.kohlerpower.it/kira
3. Connect your laptop or tablet to the VCI (Bluetooth or cable).
4. Connect the VCI to the ECU of the engine.

KIRA can be used both online and offline.

USER-FRIENDLY

Forget the old-fashioned interface of diagnostic tools, KIRA is easy-to-use and user-friendly.

It can be connected to the engine and the aftertreatment system via Bluetooth or cable.

SINGLE TOOL

KIRA features:

- Diagnosis
- Flashing
- Recording
- Reporting
- Activations directly from Synoptic diagrams
- Technical documentation

REMOTE SUPPORT

In critical cases, share your screen and get technical support from KOHLER Service Engineers.
