ST	Start Frequency

ONLINE. ON-SITE. OR IN OUR FACTORY.

YOUR TRAINING DONE YOUR WAY.

At Kohler, we're dedicated to seeing your business succeed. That's why we offer the flexibility of classes online, on-site or in our factory. Training, certifying, succeeding—whatever you need to learn to boost your business, we've got you covered.

TRAIN

Get hands-on training

Put 90 years of power experience in your tool kit. If you're a distributor, dealer, engineer, contractor, service technician or sales associate, our training can help you better meet the demands of the markets you serve.

CERTIFY

Be recognized as an expert

Factory-trained technicians can provide warranty and system start-up services on KOHLER® power systems. As a dealer, contractor or service technician, certification puts you ahead of the competition.

SUCCEED

Sell and service profitably

Proper training is key to profitability—and instrumental in moving your business forward. Gain your customers' trust and confidence and get on the path to success with KOHLER Learning Academy.

SALES TRAINING

Learn the basics of KPS product lines and how to sell each power system component. You'll be better equipped to understand your customers' requirements and help them choose the systems that fit their needs. Here are examples of sales training course topics:
